Diagnostic 1

DIAGNOSTIC 1

Directional Interval Reading

Instructions

- Tell the student that the staff system without a clef allows you to place your five fingers on any five white notes. The lower staff is for the left hand. The upper staff is for the right hand.
- Have the student play the three sets.*

* If the student has difficulty seeing through this task, demonstrate the first example in Set 1:
"Left hand finger 2 starts on any note; the next note is down a second because it is on the NEXT line - a space to a line is a second."

- If your student can play these examples without hesitation, proceed to Diagnostic 2.
- If your student cannot play these examples, stop the testing and place the student in SightPlay Orientation.
